AMF-BRUNS CARGO LIFTS

CARGO SWIVEL LIFT

THESE FACTS MAKE ALL THE DIFFERENCE

- » Easy transport of heavy cargo units even in small vehicles
- » The cargo swivel lift is available in two versions: 2 x 90° and 3 x 90° swivelling
- » Robust aluminium platform with two safety mouldings as standard
- » Optional: Screen floor, synthetic or wooden interior trim, cargo securing tracks and bars or lashing straps at the side panels

TECHNICAL DATA

- » Load capacity 400 - 500 kg (depending on version)
- » Power Electro-hydraulic motor, 12 V / 24 V
- » Lifting height 700 - 1200 mm (depending on version)
- » Lifting By power pack
- » Lowering By unladen weight, valve-controlled

CARGO LINEAR LIFT

THESE FACTS MAKE ALL THE DIFFERENCE

- » The cargo linear lift is suitable for vans, box vans and pick-up trucks
- » Very versatile, i.e. for pick-up trucks and van bodies up to max. 900 mm loading height, or as broadened model for HGVs
- » Three versions available:
Typ 1730 (width 920 mm x length 1560 mm, height* 1730 mm)
Typ 1530 (width 920 mm x length 1350 mm, height* 1530 mm)
Typ 1250 (width 830 mm x length 1130 mm, height* 1250 mm)
- » Optional: Roll-off safety barrier

* installation height

TECHNICAL DATA

- » Load capacity 400 - 500 kg (depending on version)
- » Power Electro-hydraulic motor, 12 V
- » Lifting height 900 mm max.
- » Lifting By power pack
- » Lowering By unladen weight, valve-controlled
